BUILT TO ENDURE.
COMMITTED TO CARE.

Sustainability Report 2025-26

Environment

69%
reduction in Scope 1 and Scope 2
emissions intensity over FY 2013-14

56.5%
electricity from renewable sources at
decorative paint manufacturing locations

589%
water replenishment

128 megaliters
of rainwater harvested and consumed
within the factory

70%
reduction in specific hazardous
waste disposal since 2013-14

54%
reduction in non-hazardous waste
disposal since 2013-14

25,323 tonnes
of recycled plastic used in packaging

80,900+ tonnes
of plastic packaging waste
collected under EPR

89%
suppliers by spend
assessed on ESG
criteria under Supply
Chain Sustainability
Program - Samaveta

SDG Goals

Product Stewardship

39%
revenue contribution of Sustainably
Advantaged Products comprising:

- **66 products** with durability of more than 5 years
- **6 US Green Seal** and **81 APL's Green Assure** range of low-VOC products
- **SmartCare Damp Proof** range of waterproofing products, designed to lower surface temperatures by up to 12°C
- **Nilaya range** of innovative paint products made with over 90% materials derived from natural sources

49,125 tCO₂e
footprint reduction through formulation
optimisation in FY 2025-26

7.0%
usage of renewable and bio-based raw materials
in product offerings (not including water)

100%
architectural coatings free of
lead & added heavy metals

**FICCI Chemicals and Petrochemicals Awards 2025: Best Green Product of the Year for APEX Ultima Supreme Air-O-Clean: advanced exterior coating leveraging photocatalytic functionality to actively reduce air pollutants.**

SDG Goals

Community

431%
water harvesting potential created through
Watermark initiatives:

- **15,361 farmers** benefited
- **147 water bodies** restored
- **5,798 hectares** supported through irrigation interventions
- **92 Water User Groups** strengthened

9,45,000+
participants participated across
2,966 towns at Beautiful Academy

2,59,000+
beneficiaries impacted through healthcare
initiatives in FY2025-26

1,500 +
number of employees participated
in FY 2025-26

SDG Goals

Health & Safety

76,000+
Safe Unsafe Act (SUSA) conversations
for promoting safety culture

29,000+
proactive reporting

INR 32.5+ Crores
CAPEX under Health and Safety

Asian Paints is the
First company
in the global coatings industry to achieve
generative stage in Behaviour-Based Safety (BBS)

All 8 decorative paint
manufacturing plants are
Five Star Certified by British
Safety Council (BSC)

Asian Paints adopted
Process Safety
Golden Rules to reinforce the frontline
behaviours that are critical to
preventing high-severity incidents.

SDG Goals

Environment Stewardship

For Asian Paints, environmental stewardship is integral to building a responsible, resilient and future-ready business. Guided by our ESG framework, we embed sustainability into business decisions, resource planning and manufacturing excellence through climate action, energy efficiency, renewable electricity, value-chain decarbonisation and climate-risk assessment. We also drive water stewardship through use efficiency and replenishment initiatives, while advancing a nature-positive agenda focused on circularity, waste and wastewater management, air emissions control, cleaner operations and biodiversity conservation.

Product Stewardship

Product stewardship is central to how Asian Paints designs, develops and delivers products that balance performance, safety and environmental responsibility. Through life cycle thinking, robust R&D, responsible formulations and innovation, we reduce lifecycle impacts, improve resource efficiency and durability, and develop sustainably advantaged products with safer chemistries and increased use of renewable or bio-based inputs, supporting lower environmental impact and long-term business resilience.

Community Partnerships

Community ownership at Asian Paints is built on trust, participation and shared progress. Through CSR initiatives and partnerships with communities, institutions and implementation partners, we create lasting social impact and strengthen resilience. Our efforts focus on vocational skills, healthcare access, water stewardship and employee volunteering, improving access to essential services, supporting livelihoods and fostering greater community participation.

Global benchmark in Safety

At Asian Paints, health and safety is guided by Vyansamadhanam, our commitment to life and breath. Through a structured Occupational Health & Safety (OHS) and Process Safety Management framework, we integrate safety into operations, risk management and workplace culture. All Asian Paints plants are ISO 45001 certified, with eight decorative paint manufacturing plants holding British Safety Council five-star certification, reflecting our continued commitment to safe, healthy and sustainable working conditions.
